

PROFESSIONAL SUMMARY

Project Manager with 5+ years of cross-sector delivery experience — 4 years at Vistara Animation owning end-to-end PM execution from proprietorship growth through OPC Pvt. Ltd. transition (CIN: U85500KA2024OPC188895), plus enterprise customer support experience as Technical Consulting Engineer at Cisco (APAC/EMEA). Delivered semester launches, a 200+ participant flagship event at 95% satisfaction, and an asset-light infrastructure consolidation reducing operational rent by 90% (Rs. 50K → Rs. 5K monthly). Established 5 strategic partnerships (2 industry, 3 academic) driving 21% workshop-to-enrolment conversion and 100% placement rate for advanced-programme graduates. Self-directed upskilling in modern PM tooling resulted in a Jira + Confluence portfolio retrospectively documenting this work as 4 epics and 42 stories, with a custom-built Python agent automating workflow creation via Jira REST API and Anthropic Claude API.

WORK EXPERIENCE

Vistara Animation & Cinematic Visual Effects (OPC) Pvt. Ltd.

Animation/VFX institute scaled from proprietorship to OPC Pvt. Ltd. structure (2024).

Project Manager — Product Operations**07/2022 - 01/2026**

- Drove 5-gate semester launch execution (curriculum, faculty, licensing, infrastructure, enrolment) on 2-week delivery cycles, achieving 100% completion with zero P1 failures on Day 1 of every tracked semester.
- Delivered 8-programme go-to-market brochure end-to-end (PRD authoring, design brief, vendor management, multi-round review, Director sign-off, 5-channel distribution) — first formal collateral following Vistara's OPC transition in 2024.
- Led infrastructure consolidation strategy: established operational bases at GMIT and BIET engineering institutes with on-campus lab infrastructure, enabling closure of standalone HQ and reducing monthly operational rent by 90% (Rs. 50K → Rs. 5K) without disrupting programme delivery or enrolment pipelines.
- Spearheaded annual Cinemotsava event (200+ participants, Rs. 2L+ budget, multi-vendor coordination) in collaboration with Vishistaa Cine Journey at GMIT, achieving 95% participant satisfaction in a 2-week execution timeline with zero on-day P1 incidents.
- Established 5 strategic partnerships — 2 industry (Sripada Studios placement pipeline; Snappy Lime hiring & distribution) and 3 academics (GMIT, BIET, RG Institute) — driving 21% workshop-to-enrolment conversion and 100% placement rate for advanced-programme graduates.
- Identified and mitigated 12+ operational risks (faculty single-points-of-failure, software procurement gaps, infrastructure dependencies) through structured retrospectives, RAID logs, and vendor pipeline formalization.
- Owned vendor management across Adobe (Creative Cloud licensing), Autodesk (Maya licensing), Snappy Lime (distribution), and Sripada Studios (placement) — including procurement cycles, contract renewals, and SLA tracking.

Administrative Liaison | Program & Operations**07/2020 - 06/2022**

- Served as primary liaison for students, parents, and instructors during Vistara's pre-OPC growth phase, managing onboarding, issue resolution, and program documentation across 4+ programme launches.
- Reduced learner onboarding time by 30% within 4 months through streamlined documentation and stakeholder alignment, implementing quality protocols aligned with university curriculum.

- Freed 20% team capacity in 3 months by automating enrolment tracking, communication templates, and resource scheduling — laying the operational foundation that enabled the 2024 OPC transition.

Cisco Systems (India) Pvt. Ltd.

Technical Consulting Engineer — TAC (APAC)

07/2019 - 04/2020

- Managed high-severity P1 incidents (network outages, service disruptions) for global enterprise customers across banking, telecom, and government sectors; reduced average resolution time through structured troubleshooting frameworks while maintaining service continuity within SLA windows.
- Maintained personal backlog discipline with daily prioritization and pre-mapped handling steps for maintenance window cases, consistently meeting SLA across 50+ resolved incidents.
- Authored Root Cause Analysis (RCA) documents and incident post-mortems for customer review and internal escalation use.

PORTFOLIO PROJECT

Retrospective Vistara PM Portfolio (2026)

Designed and built a retrospective enterprise PM portfolio of real Vistara Animation operational work spanning **4 epics, 42 stories, and 9 sprints** in Jira and Confluence. Authored full project documentation including PRDs, project charters, strategic plans, design briefs, and 1-1 meeting notes. Developed a custom Python agent leveraging **Jira REST API + Anthropic Claude API** to automate epic/story/subtask creation, sprint provisioning, acceptance criteria commenting, story-points field configuration, and bulk updates. Demonstrates AI-assisted PM workflow automation, ADF (Atlassian Document Format) handling, and end-to-end agentic execution with structured error handling and debugging discipline.

EDUCATION

Bachelor of Engineering

RV College of Engineering (VTU Affiliated) | 2019

CERTIFICATIONS

CCNA — Cisco Certified Network Associate

Cisco | 2019

Anthropic Academy

AI Fluency, Claude API Architecture, MCP Integration, Agentic AI Workflows | 6 certifications | 2025

Product Management Programme

Growth School | Mentor: Mohammad Sarosh (PM, Google) | Capstone: Full PRD with GTM strategy | 2025

Google Data Analytics Professional Certificate

Coursera | In Progress (target completion: Q3 2026)

PUBLICATIONS

Feature Extraction using Convolutional Neural Networks (CNN) and Deep Learning — (Co-author)

IEEE RTEICT | 2018

SKILLS

- **Agile/Scrum Project Management:** Sprint Planning, Retrospectives, Backlog Management, DACI Framework, Velocity Tracking, Burndown Analysis.
- **Project Controls & Governance:** RAID Logs, Risk Registers, Status Reporting, SLA Management, Compliance Tracking, Pre-clearance Approval Workflows.
- **Stakeholder & Cross-functional Coordination:** Distributed Teams (APAC/US/EMEA), Multi-Party Ecosystems, Government Liaison, Vendor Management.
- **AI-Assisted PM Automation:** Python, Jira REST API, Anthropic Claude API, Agentic Workflow Design, JSON/ADF Handling.
- **Product Documentation:** PRDs, Project Charters, Strategic Plans, Product Roadmaps, RCA Reports, 1-1 Meeting Notes.
- **Tools:** Jira, Confluence, MS Project, PowerPoint, Visio, Excel, Git, VS Code.
- **Analytics & Reporting:** SQL, Power BI, Excel, KPI Tracking.
- **Languages:** English (Fluent), Kannada (Native), Hindi (Conversational), Telugu (Conversational).
